"CITY CAN RUN ITSELF." SWORN TO KILL JEWS.

He Is Only Interested-No Signs of Fusion Yet.

State Chairman Odell, who spent yesterday after moon with President Halpin of the County Com-mittee and three or four of the district leaders. said that there would be no outside interference with the management of the Republican end of the

"The county organization will run its own cam-paign," he said. "It is fully competent to do it, as was made plain last year. As chairman of the State organization it is natural and proper that I should take an interest in the work that is going on, but my interest is that of State chairman, and not that of a county committee official. A number of Assemblymen are to be elected in this county and other counties making up the city, and naturally I am interested in getting as large a reprecentation as possible."
"Will the Republicans here be for fusion or for

traight ticket?" he was asked. I don't know what the New-York Republicans I do," said Mr. Odell. "The Republicans up in will do," said Mr. Odell. Newburg are for a straight ticket. We are electing a Mayor there this fall."

"Do you ever have fusion in Newburg?" The Democrats fuse with the labor men and

the Socialists The State chairman will be in town to-day and to-morrow. He was at the Republican Club last night, and talked over the local situation with the nembers of the club. Ex-Lieutenant Governor Woodruff leader of the organization in Kings, is expected here by to-morrow, and it is likely that ex-Governor Odell will have an opportunity before be returns to Newburg to get the views of all the local district leaders.

The executive committee of the City Cor nd the County Committee will meet on Thursday. The City Committee will fix the date for the city

onvention. Primary day is September 19.
One of the significant things of the period is that othing is being done to bring about a conference of the anti-Tammany organizations. Two years ago at this date the conference committees had things well in hand, and all the signs pointed to a fusion movement. The Citizens Union last winter sent its declaration of principles to all the political organizations, including Tammany Hall. This action was so far out of harmony with its attitude two years ago that the Republican leaders were compelled to ask the Union whether Tammany is to be considered as one of the factors in the anti-Tammany campaign. As yet the Union has not nt the explanation asked for by the Republicans President Halpin and his associates have about

made up their minds that the Citizens Union is willing, but not anxious, that the Republicans should join forces with it this year, and that it is disposed to accord to the Republicans neither less nor more consideration than is accorded to other anti-Tammany organizations. R. Pulton Cutting, president of the Citizens

Union, whose personal choice as a candidate for Mayor is District Attorney Jerome, said yesterday that his organization had not heard anything "We could not expect to have any reply from

him, as we have not asked him anything." said "What has been said by me and others with respect to Mr. Jerome and the Mayoralty is only an expression of personal opinion The are not governed by bosses. Our work is done to committees and by convention. There will be a seeding of the committee on nominations that seek. That committee was appointed to make excommendations to the city committee, which will

week. That committee was appointed to make recommendations to the city committee, which will report to the convention.

Mr. Cutting said he did not think the nominating committee would confer with Mr. Jerome before making its recommendation to the city committee. Charles F. Murphy met eight or ten of his district leaders at Tammany Hall yesterday. The Democratic City Committee will meet next week to choose a date for the city convention. Already the little Tammany men, who make much of fragments of gossip picked up at the Wigwam, are making a lot of noise about the visit to New-York of State Chairman Odell. The name Odell sends a chill through Tammany Hall. Mr. Murph has not forgotten that State Chairman Odell has a card index system which includes the name and affiliations of every voter in New-York County. A well directed effort will be made again this year to keep about 10,000 reneaters and floaters from rolling up Tammany pluralities. It is a painful prospect to the Murphys and Sullivans. The Republican State chairman "makes trouble in the business," as Mr. Croker once said of Bird S. Coler.

MR. ODELL TO BE PRESENT.

Ex-Governor Odell expects to be present at the District, which will be held to-day at College Point. Long Island. The members will leave the West 21st-st, pier at 10 o'clock.

QUARREL OVER PATIENT.

Doctors Have Wordy War While Injured Man Lies on Pavement.

Two ambulance surgeons from the Hudson of words last night over a patient, and almost came to blows before the St. Gregory surgeon finally gave in, after expressing a somewhat strong opinion.

The case was that of Frank Smith, an engineer, of No. 4,517 North 17th-st., Philadelphia. Smith was found on his back, unconscious, a stream of blood running from his head, under a bridge arch near No. 238 William-st. The man who discovered Smith found Surgeon Duncan, who seized a medical case and ran to the scene

By that time several policemen had carried the patient to a saloon at No. 222 William-st., and another policeman sent a call to the Hudson Street Hospital, through Police Headquarters, for an ambulance. This brought Surgeon Vance, who arrived there as a St. Gregory ambulance followed up its own surgeon. After a hot argument Dr. Duncan gave in.

> Philip Cowen, publisher of "The American He brew," said yesterday that he believed the bombs recently sent by mail to well known Jews of this city were the handlwork of an organization of Jewhaters that sent a threatening letter to him last April. When he received the letter, he said, he turned it over to Police Commissioner McAdoo. who still has it in his possession. He said he agreed not to publish the letter, thinking that it might inspire some mischief. The letter was re-called to his mind by the sending of a bomb to Edward Wassermann, at No. 42 Broadway, or July 20, and again by the sending of similar bembe to Jacob H. Schiff's office and to the office of Guggenliein's Sons last Friday. Apparently the same persons sent a bomb by mail late last week to Jacob Uliman, in Saratoga. Like the threatening letter sent to Mr. Cowen, none of the bombs hurt

The third name, however, was American, as was the characteristics ter of the handwriting of the signature, an indica-tion that the letter could not have been deviseby one crank. The letter was the following:

The object of the society will be to kill any Jew that is prominent or rich, or that in the future becomes prominent or rich in North or South America, unless such Jew changes his faith and becomes a Christian. We don't believe in letting a Jew go too far, as they have got beyond the limit of things, with their gently of the proof of the society, while their moneybags overflow, and all such dirty, low down, inhuman tricks which they have and do now take great pleasure in performing.

I do not regret to let you know that you will be surprised in the near future by finding many prominent Jews mysteriously put to death and also many Christians who have been giving aid to the Jews. as we class them as traitors to Christianity, and they are deserving of the same fate.

I also must tell you that my men are very busy studying the records of all Jew business men, and at present there are 352 of these on the blacklist, besides some prominent theatre managers, prizefighters, police sergeants and others all Jews, who, I am glad to say, will get a warm reception when I begin business

Your own record will be looked up, and I hope your name will never be on the blacklist, but if it happens to get there I will at least pity you.

"It is evident from the tone of the letter," Mr Cowen said yesterday, "that the organization named in it is not so much socialistic as anti-Semitic. The whole animus is against the Jew. Of course, the

The senders of the bombs to Messrs. Schiff, Wassermann and Uilman and the Guggenheims, it is to be recalled, took great care not to betray themselves by writing addresses on the packages which were sent through the mails. The addresses were placed on the packages either by pasting letters cut from newspapers or by using rubbe: types such as are made for adjustable stamps.

Despondent because her husband deserted her eight years ago was the cause given by Mrs. Lillie Winters, of No. 73 Morgan-ave., Williamsburg, in the Manhattan-ave, police court, where she was arraigned on a charge of attempting suicide. Early yesterday Policeman Bruns, standing at Grand-st. and Metropolitan-ave., was attracted to the bridge over Newtown Creek by the screams of an hysterical woman. He found a young woman trying to leap from the bridge and being restrained by John Grimes, a watchman.

Many of our friends were disappointed when we let last Winter go without any low priced suit sale.

The fact was that the demand for our suits at regular prices sold down our stock until what was left didn't amount to enough to offer in a sale, and was disposed of otherwise.

For the season just ending we provided more amply, and though we have sold over 90% of the production at regular prices, the usual proportion of broken sizes and odd lots remains to be cleaned up.

Every mixture suit in the lot was made for this season's business, save only some few heavy weights from last winter's stock.

THEATRICAL OPENINGS.

"THE PEARL AND THE PUMPKIN,"

Broadway Theatre.

"The Pear: and the Pumpkin," an extravaganza by Paul West, W. W. Denslow, and John W. Brat-ton, was brought out at the Broadway Theatre last night. It was a huge affair, and what it lacked n pretty girls it made up in specialities.

This is the story: A pumpkin famine is caused by a malicious sprite known as the Corn Dodger. One solitary crop has been raised by a Vermon' boy, Joe Miller. Ike Cannem, the proprietor of a canning factory in Bermuda, arrives to obtain possession of this crop, and the Ancien; Mariner comes from the bottom of the sea on the same quest, being sent by Dav; Jones, who keeps a boarding house for reformed pirates. The pirates have made the life of Davy unhappy with their demands for pumpkin pie, Both Cannem and the Ancient Mariner are anxious to secure not only Joe Miller's secret but the pumpkins he has raised. They arrive to learn from the village 'tack o'-lan erns." The wicked Corn Dodger transforms Joe into a "pumpkin-head," and the Ancient Mariner abducts an' carries him to Davy Jones's locker, through a magic spring that communicates with the bottom of the sea. At the bottom of the sea the pirater wish to convert Joe into pumpkin pie, but is saved by Mother Carey, a good fairy, who arrives with her band in the guise of a submarine fire brigada. The scenes shift to Bermuda, where Cannem's canning factory is first shown. Here the pumpkin-boy, with the exception of his head, is cut up to serve as filling for pies for the guests of a hotel. The head is thrown overboard, and appears in the moon as it rises on the surface Meanwhile the real Chandler died in St. Alof the waters. Then the Corn Dodger undoes all bans, Vt., and Standish was pardoned by the his wrong, transforms Joe into a boy again, and Premier of Canada, Sir Wilfrid Laurier. all ends happily.

There are pienty of dancers and singers in the cast, and some of the scenes are more than ordinarily spectacular. The usual transformation and quick changes are as numerous as in similar spectacular.
